

International
CERTIFICATE

is granted to
GALYKA Evgeniya

to assure that he/she has taken part in
Seminar of VDW Endodontics Synergy GmbH
"Revolutionary Technologies in Endodontic Treatment"

- New philosophy of processing and formation of the root channel. Immutable rules of successful disinfection of root channels. Moot points and incontestable facts of an effective irrigation of root channel's systems.
- Choice of an obturation system of root channels depending on a clinical situation. Modern principles and standards of postendodontic tooth's restoration. The analysis of difficult clinical cases. The reasons of errors and complications.
